

TURN GRANT DOLLARS INTO KITCHEN CAPACITY

Built for Healthy Universal School Meals

HUSM raises the bar. Your kitchen has to be ready.

New Mexico schools are serving more meals, improving meal quality, and expanding scratch cooking. The right equipment and infrastructure plan can turn grant funding into safer workflows, higher throughput, and a kitchen your team can actually operate.

WHAT HUSM FUNDING CAN SUPPORT

New Mexico's HUSM rule allows School Food Authorities to use program funding for meal-quality improvement needs, including equipment, staffing/labor, training and technical assistance.

PUT EQUIPMENT & INFRASTRUCTURE DOLLARS WHERE THEY MATTER MOST

- Replace bottleneck equipment that limits meal volume.
- Add combi ovens, braising pans, steam, holding or prep capacity for scratch cooking.
- Improve refrigeration, hot holding, warewashing and food-safety workflows.
- Plan utilities, ventilation, clearances and space before equipment is ordered.
- Modernize serving lines to move students faster without sacrificing meal quality.

NMRS HELPS YOU BUILD THE PLAN

- On-site kitchen and workflow assessment
- Equipment selection, alternates and specifications
- Commercial kitchen design / CAD + KCL support
- Procurement support and project coordination
- Receiving, delivery, set-in-place and installation coordination
- Warranty and after-sale support

ONE PROCESS. FEWER SURPRISES.

PROUD TO SUPPORT NEW MEXICO SCHOOL NUTRITION

New Mexico Restaurant Supply is committed to the New Mexico School Nutrition Association and to the professionals who feed New Mexico students every day. We believe better kitchens support better meals - and stronger school nutrition programs.

Before you spend the next grant dollar, start with the kitchen plan.
